

**TeamTBA** 

Is proud to announce:

# **ARC FLEX ULTRA BEAM BLADES**

**“BEAM” design wiper blade that meets the latest O.E.M. specifications. Suitable to most cars equipped with conventional style wipers blades. This coverage is possible with only one SKU for each blade length at a price point that provides greater profit for you and better value for your customers.**

**MADE IN USA**

## **PRODUCT FEATURES & BENEFITS**

- Innovative All Season “Beam” design provides constant pressure across the entire length of the blade.
- Round Top Spoiler design creates vacuum, pressing wiper firmly to glass for maximum pressure at most highway speeds.
- Natural rubber squeegee with “Round Hinge” neck design.
- Conventional & New O.E.M. type adaptors for easy installation on most new & older model cars and light trucks.
- Available in sizes 16”through 28”.
- **Only one SKU required for each blade length. Each blade comes with the most commonly used adapter installed for that specific size. Alternate adapters provided in package.**
- Re-closable, strong, highly visible “SAVER BRANDED” plastic tube.

**ARC FLEX ULTRA BEAM BLADES** provide precise fit for specific OE applications. Call TeamTBA today for your pricing and order quotation.
